

Empoli, _____

Dear _____,

we received your request, that was sent us by Mr _____, relating to the creation of a necessary library for the construction of dental prosthesis on implants _____.

Our technical office confirmed the possibility to create your requested library under the following conditions:

first step: after our technical office has created the requested library, a sample (files.STL) will be sent to let you test the milling;

second step: after the creation of the test item with appropriate materials, machines, milling machines and milling strategies, you will tell our offices that you are satisfy with the library; in case the result is not satisfactory for you, our technicians will make the necessary changes until the result guarantees complete satisfaction;

third step: delivery of the library an installation inside of your CAD (Dental Wings®, Lava 7®, Straumann®, Exocad®, EGS®, 3 Schape®).

Order details

Library _____ – Rotating (or No Rotating) – tot n. 1 library € 125,00

Delivery Time: up to 30 days for the completion of the four steps

Payment Terms: In Advance

MANDATORY CONDITIONS

The libraries that are created and installed after the completion of the three described phases, must be considered effective only for the use with materials, machines, milling machines and milling strategies equal to those used for the development of the libraries themselves. Simbiosi is considered exempt from any liability if the libraries are used in conditions that are different than the declared ones. However, after your satisfaction's declaration of the assigned tolerances on the installed libraries, Simbiosi is exempt from any liability for the correct construction of the dental prosthesis.

The provided material is not transferable or salable, but should be considered for the exclusive use of this contract's holder; every part that is used to create the library is patented and only available for Simbiosi.
